ZT115G

Product Introduction

12+12

4

500

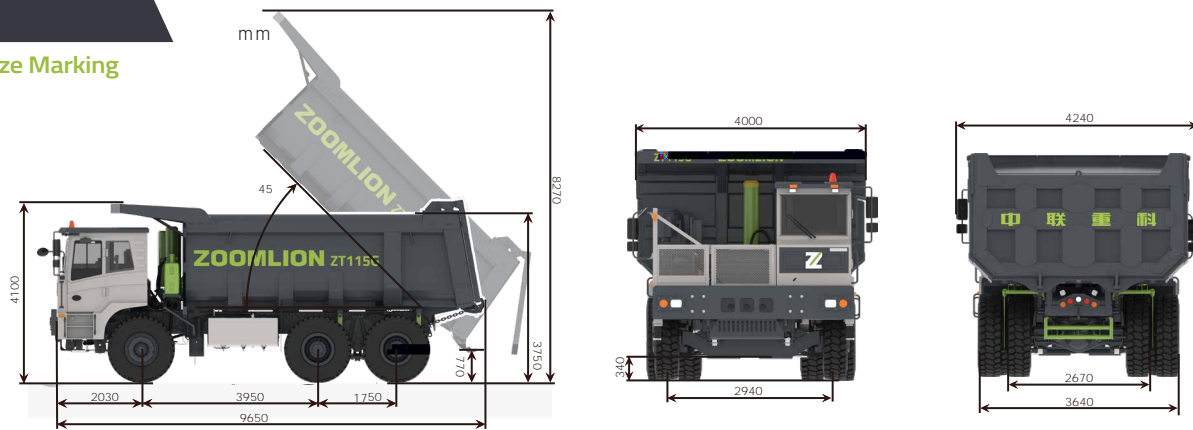

610L

The ZT115G is a 12+12 axle, 4-wheel drive, 500hp, 610L capacity truck. It is designed for heavy-duty construction and mining applications. The truck features a robust chassis and a large-capacity dump body, making it ideal for transporting bulk materials over long distances. Its advanced suspension system ensures a smooth ride and reduces wear on the vehicle components. The ZT115G is equipped with a powerful engine and a transmission that provides excellent fuel economy and performance. The truck's spacious cab offers a comfortable and safe working environment for the driver. The ZT115G is a reliable and efficient vehicle that meets the demands of the most challenging construction and mining sites.
